

DHARMENDRA GUPTA

MERN Stack Developer | React Native | AI Integration | FastAPI Microservices

Phone: +91-6392239051 Email: dg339736@gmail.com
LinkedIn: linkedin.com/in/er-dharmendra-gupta-18a81b205

Location: Noida, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Results-driven MERNStack Developer with over 1 year of hands-on experience designing and delivering scalable web and mobile applications. Proficient in React.js, React Native, Node.js, Express.js, MongoDB, and TypeScript. Currently engineering an AI-powered Event Management System with voice search, camera-based scanning, semantic vector search, and chatbot assistance via FastAPI microservices. Skilled in Redux Toolkit, JWT authentication, REST API design, and Agile development methodologies.

WORK EXPERIENCE

React|ReactNativeDeveloper (Associate)

Cetpa Infotech Pvt. Ltd, Noida, India

April 2025 - Present | Full-Time

Web and mobile development company specializing in enterprise IT solutions.

- Engineered 10+ reusable, responsive UI components

using React.js, TypeScript, Tailwind CSS, and Shadcn UI, reducing development time by 25%

- Delivered a Training Management System featuring multi-level approval workflows and role-based access control for administrators and end users
- Integrated 25 REST API endpoints via Axios, Redux Toolkit, and RTK Query, ensuring reliable and optimized data flow across applications
- Decreased UI-related defects by 30% through systematic component optimization and improved state management practices
- Collaborated within cross-functional Agile teams across 4 enterprise applications including Task Management and Event Management platforms

EDUCATION

Bachelor of Technology (B.Tech)

Dr. A.P.J. Abdul Kalam Technical University (AKTU)

August 2021 - May 2024 | India

Diploma in Engineering

Board of Technical Education, Uttar Pradesh (BTEUP)

August 2018 - May 2021 | India

Intermediate (Class XII)

S.D.K.J. Singh Inter College, Gonda

2016 | Paraspur Gonda, India

CERTIFICATION

Master in MERN Stack Development Program

CETPA Infotech Pvt. Ltd, Noida, India

August 2024 - March 2025 Completed

TECHNICAL SKILLS

Frontend: React.js, ReactNative, TypeScript, Tailwind CSS, Shadcn UI, Bootstrap, HTML5, CSS3

Backend: Node.js, Express.js, MongoDB, REST API Design, JWT Authentication

State Management: Redux Toolkit, RTK Query, Context API

AI & Smart Search: FastAPI, Whisper STT, Sentence Transformers, Vector Search, OCR (Pytesseract), OpenCV

Tools & DevOps: Git, GitHub, AWS (Basics), Cloudinary, Postman, VS Code

Payment: Payment Gateway Integration (Razor Pay)

PROJECTS

AI-Powered Event Management System

January 2025 - Present

Tech: ReactNative, Node.js, FastAPI, MongoDB, Whisper, Sentence Transformers

AI-driven platform for smart event discovery with multimodal search and intelligent vendor recommendations.

- Architected voice-based smart search using OpenAI Whisper speech-to-text pipeline for hands-free query input
- Built camera-based product scanning using OpenCV image processing and Pytesseract OCR extraction
- Engineered semantic vector similarity search using Sentence Transformers for contextual result ranking
- Developed conversational chatbot for context-aware vendor and event recommendations
- Designed and deployed FastAPI microservices integrated with Node.js API gateway and MongoDB
- Implemented multimodal search combining voice, image, and text queries in a unified pipeline

Task and Training Management System (DFCCIL)

May 2025

Enterprise platform for DFCCIL enabling task creation, assignment, tracking, and role-based training management.

- Designed and developed role-based training creation with multi-level approval workflows
- Implemented employee enrollment, HR vendor management, session scheduling, and real-time mobile push notifications
- Built course recommendation engine and dynamic participant management with full approval history
- Integrated REST APIs using RTK Query for efficient server-state synchronization

Centralized Global Error Handling System (DFCCIL)

July 2025

Production-grade error monitoring system improving reliability and reducing mean time to resolution.

- Architected centralized error capture system monitoring API failures and runtime exceptions across services
- Built admin dashboard with real-time error analytics, severity classification, and resolution tracking

EMS — Business Directory Web and Android App

September 2025

Tech: React.js, React Native, Node.js, Express.js, Braintree, MongoDB

Full-stack business directory and e-commerce platform with secure payment processing.

- Constructed responsive frontend with optimized product listings, advanced filters, and streamlined cart workflows
- Razor Pay gateway and secured backend REST APIs with JWT authentication
